📍 Karachi, Pakistan

SKILLS

Front-End Development:

- Angular
- React.js
- React Native
- HTML
- CSS
- JavaScript
- jQuery
- SCSS
- Bootstrap (versions 3, 4, and 5)
- Material UI

Back-End Development:

- Node.js
- Laravel
- API Design and Implementation
- Socket.io
- Pusher
- MySQL
- MongoDB
- Solidity (Smart Contract Development)

Additional Skills:

- User Experience (UX) Design
- Front-End Optimization
- Responsive Web Design
- Cross-Platform Mobile App Development
- Dashboard Design and Development
- Troubleshooting and Issue Resolution
- Code Quality and Consistency
- Project Management
- Collaboration and Teamwork
- Continuous Learning and Adaptability

PROFILE

With nearly three years of dedicated industry experience, I am a versatile and results-driven developer proficient in a comprehensive arrayed thatof technologies and frameworks, including Angular, React.js, React Native, Laravel, Socket.io, Pusher, HTML, CSS, JavaScript, jQuery, SCSS, and Bootstrap. My expertise seamlessly extends to encompass backend development utilizing Node.js, adeptly managing databases, including MySQL and MongoDB, and navigating the intricacies of smart contract development with Solidity. My core competency lies in delivering flawless user experiences, implementing efficient front-end solutions, and architecting robust APIs. I am unwavering in my commitment to remaining at the forefront of industry trends, and I am unwaveringly dedicated to crafting top-tier code and scalable applications that not only fulfill user requirements but also align seamlessly with overarching business objectives.

EDUCATION HISTORY

Bachelors in computer science

Anhui Xinhua University (Hefei, Anhui, China)   Oct 2019 - Present

CERTIFICATES

- Front-End Development (UDEMY)
- Computer Hardware & networking (InfraProfessional Institute)
- C Language (Computer Collegiate)
- Computer Literacy Program (SDC)
- Front-End FUndamentals (Pirple)

WORK EXPERIENCE

Full Stack Developer

Design Pros USA   2020-2023

- Spearheaded the development of front-end websites and mobile applications using React Native, from initial design to full implementation, resulting in seamless user experiences and improved client satisfaction.
- Managed end-to-end API development, utilizing Laravel, to support both web and mobile applications, ensuring efficient data communication and system functionality.
- Orchestrated the creation of user-friendly dashboards for web and app applications, enhancing data visualization and user interaction.
- Demonstrated expertise in implementing and optimizing APIs to ensure high performance, reliability, and security.
- Collaborated closely with cross-functional teams to ensure seamless integration of front-end and back-end systems, fostering efficient development processes and delivering cohesive solutions.
- Effectively utilized industry best practices and the latest technologies to stay current with design trends and optimize user interfaces for websites and mobile applications.
- Took ownership of troubleshooting and resolving issues related to front-end development, ensuring the stability and reliability of websites and mobile apps.
- Played a pivotal role in maintaining code quality, readability, and consistency across projects, enhancing collaboration among team members.
- Consistently met project deadlines and milestones, contributing to the timely delivery of high-quality products and solutions to clients.
- Maintained a strong commitment to continuous learning, keeping up-to-date with emerging technologies and industry advancements to drive innovation and elevate project outcomes.

WORK EXPERIENCE

Part-Time React Native Developer

Arthurlawrence   May 2022-March 2023

- Part-time role focused on the development of mobile applications using React Native, emphasizing seamless user experiences and integrating APIs to enhance app functionality.
- Collaborated closely with the development team to ensure efficient integration of APIs and maintain the overall quality and performance of mobile applications.
- Demonstrated excellent time management skills while working part-time, effectively contributing to project milestones and app development goals.

Part-Time Front-End Developer

JasMyTrip   Jan 2022- present

- Successfully managed and improved the front-end of the company's website in a part-time capacity, focusing on user interface enhancements, responsiveness, and performance optimizations.
- Effectively designed and developed user-friendly dashboards while collaborating with the design and development teams to maintain brand consistency and improve user experiences.
- Implemented best practices for part-time front-end development, ensuring responsive design and cross-browser compatibility to enhance website functionality.
- Conducted regular quality assurance checks and testing in a part-time role to promptly identify and resolve front-end issues, contributing to a smooth user experience.
- Demonstrated excellent time management and contributed to meeting project deadlines and milestones while working part-time, aiding in the successful launch of website updates and dashboard enhancements.

Angular Developer

Mentoga   Nov 2023-present

As an Angular Developer at Mentoga, I am entrusted with the responsibility of maintaining and optimizing the Mentoga platform, a dynamic space where fans connect with creators. Working extensively with Angular 17, I focus on enhancing the platform's performance and speed to ensure a seamless user experience.

- Optimization and Performance Enhancement: Implementing strategies to optimize the platform's performance and speed, ensuring fast loading times and responsiveness to meet user expectations.
- Continuous Redesign: Engaging in iterative redesign processes to enhance the platform's functionality and user interface, keeping it aligned with evolving user needs and industry trends.
- Platform Functionality: Overseeing the functionality of the Mentoga platform to facilitate seamless interactions between fans and creators, ensuring a smooth and enjoyable user experience.
- Collaborative Development: Working collaboratively with cross-functional teams to integrate front-end and back-end systems efficiently, fostering a cohesive development environment and delivering comprehensive solutions.
- Quality Assurance: Upholding high standards of code quality, readability, and consistency to ensure the stability and reliability of the platform, contributing to a robust and error-free user experience.
- Timely Delivery: Meeting project deadlines and milestones consistently, ensuring the timely delivery of high-quality updates and enhancements to the Mentoga platform.
- Continuous Learning: Maintaining a commitment to continuous learning and staying updated with emerging technologies and industry advancements, driving innovation and elevating the platform's performance.

Through my role at Mentoga, I am dedicated to ensuring that fans can seamlessly connect with their favorite creators and celebrities, contributing to the overall success and growth of the platform.

PROJECTS

- **Buy Oklahoma**

BuyOklahoma is a dynamic and user-friendly real estate web application developed using Angular, designed to streamline the process of discovering and acquiring properties in the beautiful state of Oklahoma. As a pivotal part of my professional portfolio, this project showcases my skills in web development and my ability to create intuitive digital solutions for real-world challenges.

- **Hidden 10s**

Hidden10s is a comprehensive matrimonial and dating web application built on the Angular framework, offering a unique blend of matchmaking for those seeking life partners and a platform for individuals looking to connect and date. This multifaceted project demonstrates my expertise in web development and showcases my ability to create complex, interactive, and secure digital platforms that cater to diverse user needs.

- **Fitness Finder**

Fitness Finder is a versatile mobile application developed using React Native, designed to assist users in their fitness journey by connecting them with certified gym trainers, physiotherapists, nutritionists, and other fitness professionals. As a significant project in my portfolio, Fitness Finder demonstrates my proficiency in mobile app development and my commitment to enhancing the health and wellness of individuals.

- **My Ride**

My Ride is a comprehensive transportation solution that combines a cutting-edge ride-hailing mobile application developed using React Native with a powerful dashboard built on Angular, all backed by a robust Laravel backend and MySQL database. This integrated ecosystem is designed to provide convenient and reliable transportation services to users seeking on-demand rides, similar to popular services like Uber. This project exemplifies my expertise in creating end-to-end solutions for modern transportation needs, showcasing my proficiency in mobile app development, web dashboard design, and backend system development.

- **Buckeye**

Buckeye is a dynamic platform designed to seamlessly connect contractors with users, offering a robust space for creating comprehensive profiles and portfolios. Built on Angular and powered by a Node backend with MongoDB integration, Buckeye empowers contractors to showcase their work and users to request quotes effortlessly. With a secure PayPal-based monthly subscription system, users have the flexibility to cancel at any time, ensuring a hassle-free experience for all parties involved. Buckeye's intuitive interface and efficient backend structure underscore my proficiency in crafting user-centric platforms that foster transparent and efficient contractor-user interactions.

AHMED ALI

FULL-STACK DEVELOPER

TO WHOM IT MAY CONCERN,

With my extensive experience in front-end development, React Native mobile app development, and API integration, I am confident in my ability to excel in this role.

Over the past three years, I have honed my skills in various technologies and frameworks, including Angular, React.js, React Native, Laravel, and more. I have successfully managed end-to-end web and mobile app development projects, which involved creating user-friendly dashboards, implementing efficient front-end solutions, and architecting robust APIs. My commitment to delivering seamless user experiences and maintaining the highest code quality standards has been a hallmark of my career.

I have a proven track record of collaborating effectively with diverse teams, enabling me to adapt seamlessly to different project environments. I am dedicated to staying up-to-date with the latest industry trends and technologies, ensuring I can deliver innovative solutions and drive results.

I am excited about the opportunity to bring my skills and expertise to your organization. I believe that my passion for creating exceptional user experiences and my ability to tackle complex technical challenges make me a valuable asset to any team.

Thank you for considering my application. I am eager to discuss how my qualifications align with your needs and contribute to your organization's success. Please find my resume attached for your reference. I look forward to the possibility of working together.

SINCERELY,

AHMED ALI RAJPUT
